CAREER PROFILE

I am a Web Developer based in Ottawa, Ontario. I have spent the past couple of years building responsive websites using Content Management Systems like Drupal and Wordpress. I also build quality user interfaces and user experience with Javascript frameworks like React and React Native.

When I'm not writing code, I indulge in reading, writing down my thoughts and playing video games. I also do a lot of research and study to keep up with current trends and industry standards in software development.

RECENT WORK

Web Developer   Present
WebDrive

- Build and maintain websites for medium- to large-scale institutions
- Saw a 10% increase in clientele since I started
- Work with Drupal/Wordpress to build websites clients can update and maintain on their own. Here are some of the work I was involved in:
  - The Information and Communications Technology Council's job board **(powered on Wordpress)**
  - Let's Talk Science Space Site **(powered on Drupal)**
  - Office of the Public Sector Integrity Commissioner of Canada website **(powered on Drupal)**

OTHER PROJECTS

Here's a look at some of my other projects. You'll be able to find their source code on my GitHub and some blog posts on my medium pages.

Giphy 2.0   Giphy App Update - Find gifs in a cool exploration interface   June 2019
Built on ReactJS

Trackmate   An order-tracking admin interface for small businesses   May 2019
